

Head start for pulses, soybeans and wheat. Dead end for embarrassing kochia – and more.

Apply in the fall or spring for extended soil active weed control.

PERFORMANCE

- **Valtera™ (Group 14)** knocks out tough broadleaf weeds with up to 8 weeks of extended weed control in pulses, wheat and soybeans. This post-emergent herbicide can help manage Group 2-, 4- and glyphosate-resistant weeds.
- **Fierce® (Group 14 & 15)** has activity on some of the toughest weeds including Group 2-, Group 4- and glyphosate-resistant biotypes. It provides powerful performance, combining 2 active ingredients that control broadleaf and grassy weeds.

CONVENIENCE

- When applied in fall, Valtera and Fierce create a protective layer of herbicide that activates with spring moisture
- While you're busy seeding, Valtera and Fierce can actively help control spring weeds as they emerge
- In spring, residual activity of Valtera and Fierce take out multiple flushes of weeds helping your crop get a head start

CHOOSE THIS SOLUTION FOR

REAL FARM REWARDS†

Valtera

- CHICKPEAS, FIELD PEAS, LENTILS (fall application), SOYBEANS, WHEAT

- Extended early season control of chickweed, kochia, lamb's-quarters, pigweed, seedling dandelions and volunteer canola (suppression)
- Flexibility to move from pulses to cereals with one product

Purchase Valtera herbicide for the opportunity to save **\$2.00/acre**

Fierce

- CHICKPEAS, FIELD PEAS, LENTILS (fall application), SOYBEANS, SPRING WHEAT

- Enhanced control of chickweed, kochia, lamb's-quarters, pigweed, volunteer canola (suppression), wild buckwheat and grassy weed species

Purchase Fierce herbicide for the opportunity to save **\$2.00/acre**

Saving you time, money – and a lot of hassles.

- No bulky, dry broadcast products to deal with (one case of Valtera treats 160 acres, and a case of Fierce covers 128 acres)
- No additional equipment or field passes are required after application, apply with a field sprayer
- Apply after harvest close to freeze up so that you can get a head start on weed control and managing workload next spring
